Minimal Impacts

Moderate Impacts

Severe Impacts

# **WEATHER KEY POINTS**

**04/05/22 - 04/11/22**

## **Tuesday - Monday**

- Very warm temperatures will continue across the state through the work week, with minor to locally moderate heat impacts
  - The warmest temperatures are expected Wednesday through Friday, with record-setting high temperatures for early April possible
- Dry weather will continue for the state through the week
- Gusty winds will continue across the state through Tuesday, strongest in the mountains of Southern Region
  - Gusts of 40-60 mph are possible across portions of southern California, including the Santa Barbara South Coast, the Antelope Valley, and the I-5 Corridor, which could damage trees and produce difficult driving conditions
    - Elevated to briefly critical fire weather conditions are possible in these areas
- Though winds will weaken for Wednesday through Friday, lingering gusty winds could allow elevated fire weather conditions to continue, especially in Los Angeles and Ventura counties
- Cooler, windier, and potentially wetter weather will likely develop this weekend into early next week

# PRECIPITATION FORECAST

04/05/22 - 04/07/22

**Precipitation is not expected through Thursday**

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

**Precipitation (inches)**

# **WEATHER OUTLOOK**

**04/10/22 - 04/18/22**

## **6-10 Day Outlook (April 10 - April 14)**

### **Temperatures**

- Below normal temperatures are favored for the entire state

### **Precipitation**

- Above normal precipitation is favored for northeastern California and across the southern half of the state, with near normal precipitation favored for the remainder of the state

## **8-14 Day Outlook (April 12 – April 18)**

### **Temperatures**

- Below normal temperatures are favored statewide

### **Precipitation**

- Below normal precipitation is favored for much of the state, with near normal precipitation favored for far northern and southern portions of the state
